ACADEMIC YEAR WS 2023-24

Identification of Fast Learners

The fast learners are identified with the following criteria

1. Previous Semester End Examination (SE) Result
2. Performance in the current semester Continuous Evaluation Test 1 (CE)
3. Observation from the course faculty

Methods of Identification

By following a methodological approach to assess and identify the learning levels, a faculty can gain a better understanding of their students' strengths and weaknesses and provide targeted instruction to meet their needs.

The slow and advanced learners would be identified for each course separately by respective course faculty for all the programs offered in the Institution.

- The Identification process can be done after the declaration of previous semester end examination (SE) result and the performance in the current semester Continuous Evaluation Test (CE) 1

The following parameters and weightages thereon would be considered

1. Performance in the current semester
Continuous Evaluation Test – 1 : 50 %
2. Previous Semester End Examination Performance : 40 %
3. Observations by the Course Faculty : 10 %

A student who has secured 60% and above of total weightage will be considered as Advanced Learner .

Follow up of Fast Learners are done with the following

1. Fast Learners classes are provided with different track like Higher studies, Placement, coding, Entrepreneurship and Research Publications.
2. Fast Learners are encouraged to participate in Project competition and Hackathons.
3. Fast Learners are encouraged to participate in coding Competition and Placement drives.
4. Fast Learners are guided to involve with them with the Professors for the Research Publications.
5. Fast Learners are provided with the information regarding the TBI startup facilities to avail the entrepreneurship opportunities.
6. Fast Learners are also given guidance to prepare for GMAT, GRE, CST and GATE Competitive exams.
