

**School of Electrical Communications
Department of Biomedical Engineering
Stakeholder feedback & It's Implementation status in BoS (2018-2021)**

Program Code	Program Name	Academic Year	Course Code	Course Name	Action taken from Stakeholder feedback	Implementation status in BoS
UEBM	B.TECH BIO MEDICAL ENGINEERING	2018-19	1151BM106	Engineering Mechanics	Based on the comments from 2018-19 experts feedback analysis and 1st BoS in 2017-18 Engineering mechanics course is included in the curriculum	Approved in 2nd BoS
			1151BM103	Digital Electronics	Based on the comments from Faculty feedback the topics like AD & DA are included in 5th unit of digital electronics	Approved in 3rd BoS
			1151BM301	Biochemistry & Physiology Laboratory	Based on comments from faculty feedback - Measurement of pulse rate and SpO2 is removed because it is in BMI lab, and Study of blood collection tubes is also removed due to irrelevant content	Approved in 3rd BoS
UEBM	B.TECH BIO MEDICAL ENGINEERING	2019-20	1151BM112	Diagnostic & Therapeutic Equipments-1	Based on feedback from faculty regarding the vast syllabus. Some content from DTE1 are included in DTE2	Changes in syllabus approved in 4th BoS
UEBM	B.TECH BIO MEDICAL ENGINEERING	2020-21		Control System	Based on feedback from students regarding the inclusion of Control system in the curriculum. The same has been discussed to change Control System from Allied Elective to Program Core in new curriculum	Approved in 5th BoS
			1152BM106	Rehabilitation Engineering	Based on the comments from 2020-21 experts feedback analysis to include 3D printing topic in the course to be included in other electives	Offered as Institute elective by other department
