About Vel Tech Technology Incubator Center

Vel Tech Technology Incubator Center at Veltech Dr. RR and Dr. SR University, Chennai was established in year 2010, in joining hands with Department of Science and Technology (DST), Government of India. It has seven thrust areas of research which includes Automobile; 3D printing; Embedded systems/VLSI; E-waste, Plastic waste and Bio-waste management; MAV/Robotics; IT/ITES Services and Renewable Energy. It also provides financial assistance to deserving Entrepreneurs to convert their innovative ideas into commercial viable products.

About Bio Incubator and Lab

Bio Incubator and Lab formerly known as Bio Waste Management Laboratory was established in year 2011 which functions under umbrella of Vel Tech Technology Incubator Center. More than, 25 research articles have been published by the Laboratory faculty members and organized four training programme so far. In addition, we also provide analytical services on charge basis for both internal and external researchers.

About the training

Cultivation of Mushroom has been in vogue for almost 300 years. Growing mushroom under controlled condition is of recent trend. Its popularity is growing and it has become a business which is export-oriented. Mushroom is an excellent source of protein, vitamins, minerals, folic acid and is a good source of iron for anemic patient.

Mushrooms are of different types:

a) Button Mushroom

b) Dhingri (Oyster)

c) Paddy Straw Mushroom

Of all the types, button mushroom is the most popular one. Mushroom cultivation can be done at cottage and small-scale levels besides large-scale farming.

Market potential

The main consumers of mushrooms are Chinese food restaurant, hotels, clubs and households. In big cities, mushrooms are sold through vegetable shops. The growing domestic and export market was also the delicacy and food value provides extensive and good potential for cultivation of mushroom. The daily demand for mushroom is around 75 to 100 tonnes in Tamil Nadu alone, whereas the State's production of the button, oyster and milky mushroom is only about 10 to 15 tonnes.

Objectives of the training:

1. To bring awareness about mushroom cultivation among the researchers & students.
2. To educate different types of mushroom and their importance.

Training Program Schedule:

Training program schedule includes two sessions:

- Introduction to Mushroom cultivation- Theory session and
- Demonstration –Practical session.

Eligibility
The training programme is open to all students and researchers.
Programme date: 27.11. 2017.

Venue:

Research Park, Vel Tech Rangarajan Dr. Sagunthala R & D Institute of Science and Technology.

Programme fee: Free

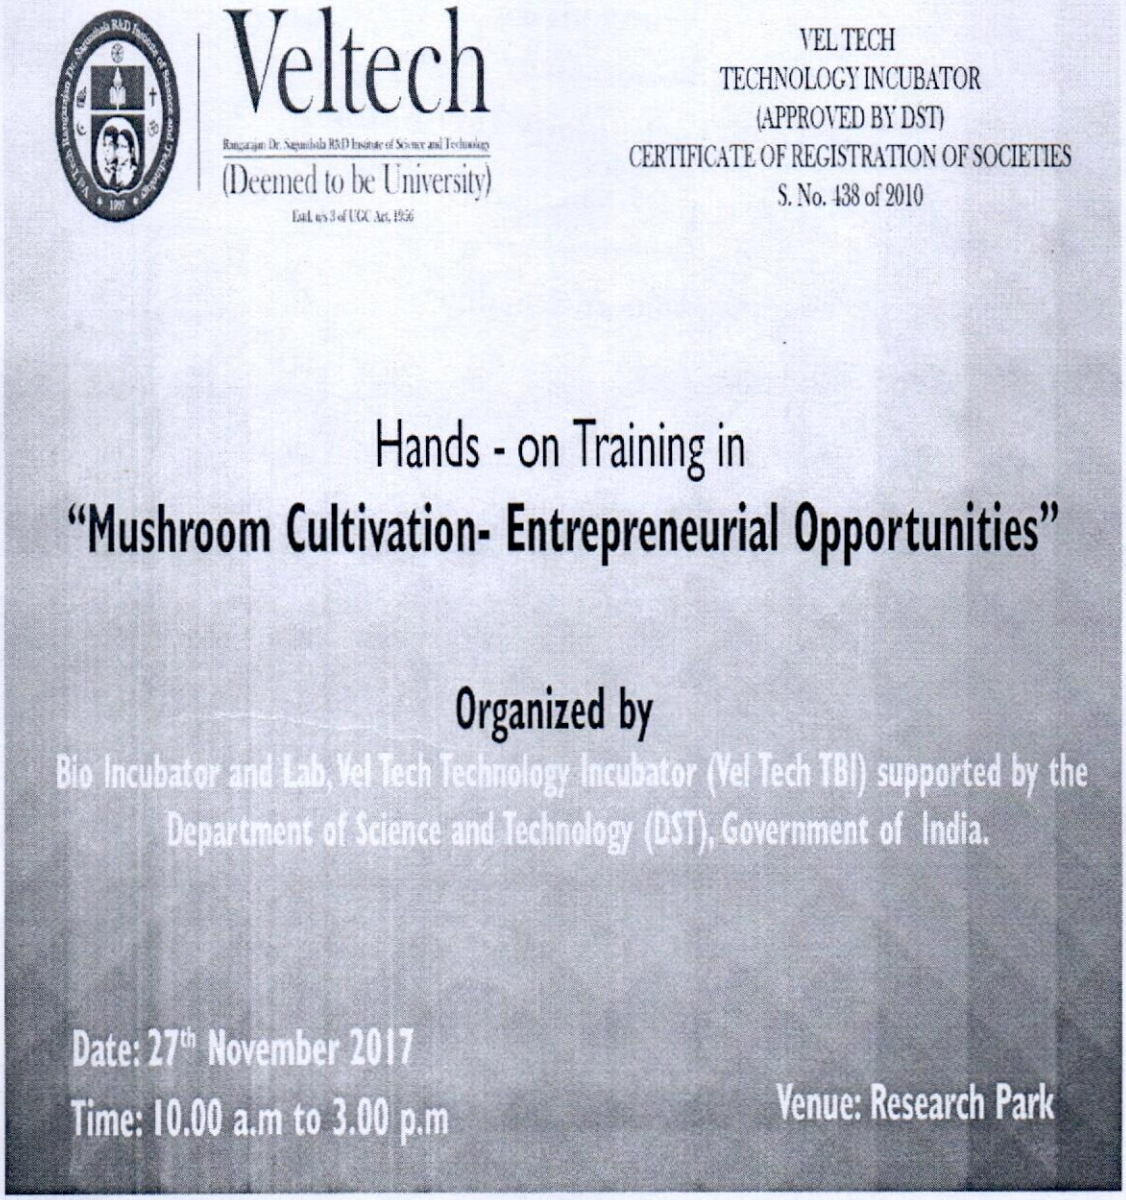

About the Content delivering expert

Dr. S. Kumaran, Assistant Professor & Head, Department of Botany, Periyar University, PRUCAS, Harur.

He is currently working as Assistant Professor in Department of Botany, Periyar University, PRUCAS, Harur. Before joining Periyar University, he had worked as Associate Professor in Muthayammal Centre for Advanced Research, Namakkal; Senior Scientist in S & R Agro Biotech, Chennai and Post-Doctoral researcher in UKM, Malaysia. His research interests are: Natural products research, Protein research and identify bioactive compounds from mushroom *Ganoderma applanatum* (Agaricomycetes).
