**Respected Madam,**

**Sub:** Requesting Approval to get Advance Cash - Reg

This is to bring to your kind notice that Vel Tech TBI & SVP Laser Technology Pvt ltd, jointly organize the one day workshop on 'Digital Manufacturing Techniques & Applications" on 31.03.2017. The registration fee would be fixed Rs. 1000/- each & the expected participants would be 40no's. For registration Fee there are two modes either by cash or Debit fee. Herewith we request your approval to provide as below mentioned,

- Velmurugan Auditorium
- Photo graph & Video graph facility during the session
- Tea & snacks to speakers (five numbers )
- Lunch for Participants (60 No's) on 31st March 2017
- Advance cash for following as,

| | |
|---|---|
| Remuneration to Speakers | - Rs.15000/-(Details Enclosed) |
| Banner | - Rs. 500 |
| Certificates | - Rs.1000 |
| Total | - Rs. 16500/- (Sixteen Thousand Five Hundred) |

To pay cheque

**Kindly Approve to get Advance Cash Rs.16500/-**

Regards,
K. Silambarasan

Subject: Re: To organize One day Workshop on Digital Manufacturing
To: "Veltech University" <vtu@veltechuniv.edu.in>
Cc: "Karthik Prakash" <karthikp@svplaser.com>, "Balu K" <baluk@svplaser.com>

Dear Mr.Silambarasan,

Thanks for your mail regarding One day workshop on Digital manufacturing Techniques .

With this mail, I have attached the program poster & agenda for your reference.

Our all inclusive charges for the one day workshop will be 15K per day.
We recommend number of participants to be limited to ~40 students.
More than this, we need to bring extra faculty and machines and will cost extra.

Students should bring the laptop for the training. We need projector & plug points to connect the machine ( ~ 2HP single phase ).

Kindly suggest the likely dates you are planning and we can discuss and finalise.

Contact us for any further clarifications.

regards
Viswesh

# Equipments and logistics expenses for the workshop ...

**Viswesh Srinivasan** <viswesh@svplaser.com> Thu, Mar 30, 2017 at 11:20 AM
To: VTU TBI <veltechtbi@veltechuniv.edu.in>, Karthik Prakash <karthikp@svplaser.com>

Dear sir,

As discussed on phone, we will be bringing CNC mill/router machine and makerbot 3D printer. 3 of our engineers will be coming for handling the sessions.
We will also be bringing raw material, tools and samples for participants to use the machines hands on. We will be engaging vehicle for full day for transportation of machines and accessrories.

Hence the 15K charges quoted is very reasonable and we will be able to offer any discount.

Kindly confirm the number of expected participants and their year/branch of study, so we can plan the logistics and content better.
All participants must bring laptop to participate effectively in the workshop tasks.

Looking forward to meet you tomorrow in the workshop.

regards
Viswesh

# ABOUT SVP LASER

**SVP LASER** is involved in design and manufacturing of advanced material processing **CNC machines** using a wide spectrum of technologies like LASER, Plasma, Rapid-Prototyping, Router etc. We also undertake industrial projects and new product development in the field of robotics, Industrial automation, machine vision, CAD/CAM sw etc. SVP Laser has developed low-cost CNC machines with indigenously developed technology for CNC controller, CNC software and CNC cutting machine mechanicals. SVP Laser Technologies has been selected as the **"Best Start up in Manufacturing"** by **CII** Startupreneurs 2014 and has conducted several skill development training programs in partnership with local Educational institutes.

Mr. S.Viswesh is the Co-Founder & Managing Director of SVP Laser Technologies, Chennai. He is a B.Tech (Mech) from **IIT Madras** and MS from **University of Minnesota USA** with 15 years work experience in Advanced Manufacturing Industry. He started his entrepreneurial journey in 2008 after working in the technology divisions of companies like Siemens and has been successfully focusing on developing products related to Low Cost Automation & CNC Digital Manufacturing.

Our team has developed several products like the MULTICNC.IN ( Multi-purpose Substractive prototyping machine and software ), RoboCNC.in ( Vision guided educational robot ), AutoCAM2D.com ( CAM software ), ECNCshop.com ( Online Machine shop ) etc.

Our manufacturing facility is in Thirumudivakkam (near Chennai Airport) and our Design Office is in Velachery, in close proximity to IITM campus. Visit : www.svplaser.com for more details.

# PRODUCTS

1. **MultiCNC Various Models**
2. **CNC Milling Machine**
3. **CMM (Coordinate Measuring Machine)**
4. **CNC Table-top Lathe**
5. **RoboCNC**
6. **FloatZ**
7. **Roto-cut**

One day workshop on

# Digital Manufacturing
## TECHNIQUES & APPLICATIONS
on **31.03.2017**

**Objective of the Programme:**

**To encourage entrepreneurship as a career option among graduated / proprietary Community**

**Target Group**

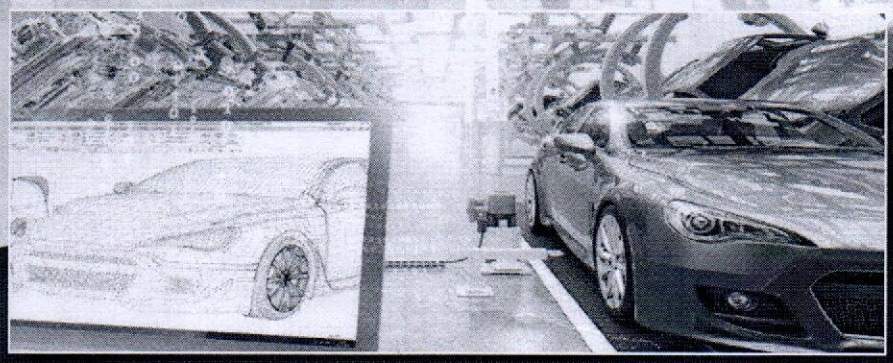

**Engineering /Science and Technology graduates / diploma holders or those who are interested to become an entrepreneur.**

**Topics to be covered**

- To get insights on various types of Digital Manufacturing (DM) machines like CNC routers, 3D printers, laser cutters etc. and how this DM technology can be leveraged to reduce product development cycles and to implement innovation, KAIZEN & process improvements in your production cycle.
- How to convert your CAD Drawings to working prototypes.
- Projects on building your own mechanisms, Wooden Toys, Robots, PCBs, Airplane models, Art work etc. Hands-on training provided on: CNC rapid prototyping of 2D & 3D components, CAD/CAM software, Product development case-studies using CNC mill, Lathe, 3D printing & Laser machines.

**Benefits of the workshop**

- The workshop will give practical illustrations of how this technology can be used to increase the production & product quality of the manufacturing sector.
- Hands on demonstrations of the CNC prototyping machines and illustrative case studies from various Industrial applications.
- The course content will be similar to the one prescribed by MIT's Fab Foundation & opportunity to interact with IIT Alumini & successful entrepreneurs
- Participants will get CNC Tutorial, CNC simulation software, sample products cut during the workshop, course participation certificate and confidence to build your own products in your career.

Registration Fee:
**Rs.1000/-**

**Title: DIGITAL MANUFACTURING: TECHNIQUES AND APPLICATIONS.**

Objective:

To get insights on various types of Digital Manufacturing (DM) machines like CNC routers, 3D printers, laser cutters etc. AND how this DM technology can be leveraged to reduce product development cycles and to implement innovation, KAIZEN & process improvements.

CONTENTS:

DAY: MORNING: (9.30AM to 12.30 P.M).

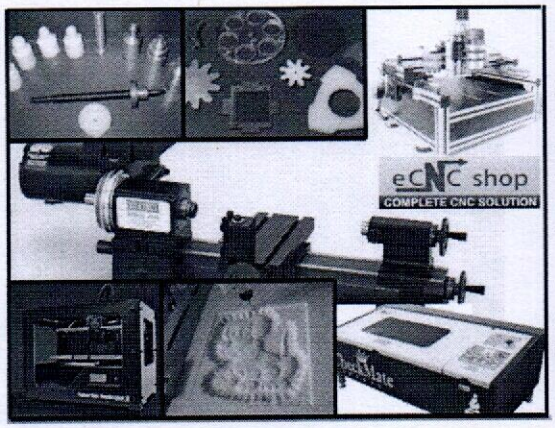

1. INTRODUCTION
2. IMPORTANCE OF DM FOR MAKE IN INDIA & INDUSTRIAL APPLICATIONS OVER VIEW.
3. VIDEO DEMONSTRATION OF VARIOUS INDUSTRIAL SCENARIOS.
4. Q&A

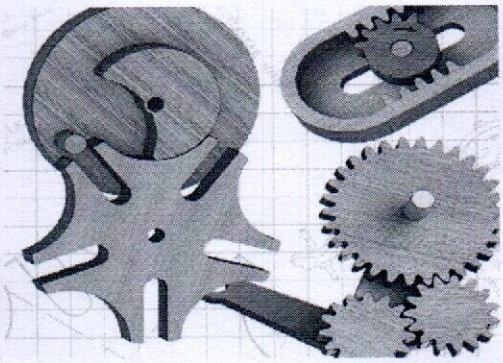

DAY: AFTERNOON: (1.30PM to 4.00PM)

1. ADDITIVE VS SUBSTRACTIVE PROTOTYPING.
2. SUBSTRACTIVE PROTOTYPING (SP) METHODS. THEORY AND APPLICATION CASE STUDIES
3. LIVE DEMO SESSIONS ON CNC MILL/ROUTER MACHINE & 3D PRINTER.
4. INTERACTIVE SESSION.

# NEW PRODUCT DEVELOPMENT (NPD) WORKSHOP

**CONFERENCE DETAILS**

**SVP Laser Technologies Pvt LTD** is offering hands-on training on CNC prototyping & New Product development. In engineering education: we study a lot of theory about product design. But when it comes to making real products: manufacturing skills & infrastructure becomes a big bottle neck. But with the advent of desktop digital manufacturing machines: Now it is easier than ever to quickly build real products. This workshop will give exposure to practical nuances in digital manufacturing techniques.

**Workshop Highlights**: Learn to convert your CAD Drawings to working prototypes. Move beyond the virtual CAD world & make real products. Projects on building your own mechanisms, Wooden Toys, Robots, PCBs, Airplane models, Art work etc. Hands-on training provided on: CNC rapid prototyping of 2D & 3D components, CAD/CAM software, Product development case-studies using CNC mill, Lathe, 3D printing & Laser machines.

The course content will be similar to the one prescribed by **MIT's FabFoundation**. (http://www.fabfoundation.org/fab-education/, http://en.wikipedia.org/wiki/Fab_lab) and will help the participants to gain confidence in building their own products in the future. Course content developed by **IITM alumni** with 10+ years professional experience.

At the end of the course : Participants will get CNC Tutorial, CNC simulation software, sample products cut during the workshop, course participation certificate and confidence to build your own products in your career.
