The AIVSC is the pinnacle aeronautic training centre in the NCC and is designed to bare the cadets to a strenuous military way of life , in addition to rousing their competitive spirits by pitting them against their peers in a number of aviation -related disciplines such as, chopper MI 17 flying, microlight flying, aero modelling, drill, skeet shooting , 0.22 firing etc. Cadets get to perform their talents in cultural night in the various form of cultural representatives and followed by prize distribution for the best performance in every aspects of competition. The chief guest was Air Commodore and Officers, cadets also interacted with DG, DDG, and ADG of NCC and had dinner with them. One day was confirmed for outing in Ocean desert Rajasthan. It was an unforgettable and wonderful experience for the cadets.

Food was good and healthy with different varieties and rest others prerequisites was also good. A proper lecture was conducted in which the various topic was discussed by our officers and instructor which was very beneficial for the cadets' future. The topics are generally, SSB, aero modelling, special subject of flying, history of IAF (Indian Air Force) etc. It is very thankful to our commanding officer Group Capt. BK Sharma and all other instructors, who selected we like candidates for this wonderful platform to represent our directorate and gave me such an estimable opportunity to be the participant of AIVSC camp.
