

Memorandum of Understanding
Between
Vel Tech Rangarajan Dr.Sagunthala R&D Institute of Science and Technology
(Vel Tech Dr.RR & Dr.SR Technical University)
Deemed University u/s 3 of UGC act 1956
&
Fluid Control Research Institute
(Under Govt. of India, Ministry of Heavy Industries & Public Enterprises)
Premier Research & Development organisation

The Vel Tech Rangarajan Dr.Sagunthala R&D Institute of Science and Technology (Vel Tech Dr.RR & Dr.SR Technical University) a Deemed University located in Chennai, TamilNadu (hereinafter referred to as Vel Tech) and The Fluid Control Research Institute, a R&D registered Society formed by the Ministry of Heavy Industries & Public Enterprises, Govt of India located at Kanjikode West, Palakkad, Kerala – 678623 (hereinafter referred to as FCRI), having recognised the need for training high quality specialist personnel required for the tasks of R&D on flow products, Testing and Calibration of Valves, flowmeters and other measuring instruments as per ISO requirements, Model approval Tests, software for design and selection of flow meters / Valves, have on this Eighth day of April, Two Thousand and Fifteen, entered into this agreement which witnesseth as follows :

1. The two institutions recognise that :

- Vel Tech has a pool of qualified faculty capable of imparting theoretical knowledge in various fields of engineering and allied engineering subjects. It has excellent infrastructure such as Engine Test Bed, High Speed Bearing Test Facility, Centre for Design, Engineering & Manufacturing, E-waste Management facility, Centre for Virtual Instrumentation etc. Vel Tech has also signed 170 MoUs with various Universities, Research Institutes and Industries in India and Abroad for mutual exchange of resources and academic interactions.
- FCRI has the state of art facilities and experts specialized in various areas listed below:
 - ✓ Calibration, Testing and Experimental work related to flow meters, valves etc.
 - ✓ CFD and FEM Studies
 - ✓ Software for selection of flow meters, valves etc.
 - ✓ Model Approval of Flow meters and custody transfer systems
 - ✓ Endurance Testing of Critical Components
 - ✓ Design and Development of flowmeters
 - ✓ Training programme on Fluid Flow Measurement & control Techniques, Instrumentation and Control & Data Acquisition System

2. Vel Tech and FCRI therefore agree to pool their resources and jointly offer a two – year **Master of Technology programme in Measurements & Control** which is specifically designed to meet the needs of modern Flow Measurements and Control industry. Vel Tech and FCRI further agree that this M.Tech degree programme is a joint venture and therefore neither of the parties shall conduct it

independently during the venture of this MoU and this PG Programme is exclusively for Vel Tech.

3. This agreement further witnesseth that -

- The curriculum of the above mentioned M.Tech degree programme would be evolved jointly as per the academic norms of Vel Tech on credit transfer basis and approved by the appropriate academic bodies at both Institutions.
- For this purpose, FCRI may nominate one officer not below the rank of chief Research Engineer to be a member in the Board of Studies (BoS) for this particular programme as an external expert.
- BoS will decide the credit transfer model.
- The programme is mainly to attract industry sponsored candidates. However, GATE qualified and self financing Non-GATE candidates will also be admitted depending upon the vacancies.
- Students with first class B.E/B.Tech degree programme alone are eligible for admission through a mutually agreed selection procedure.
- The students admitted in M.Tech. Programme will spend their first two Semesters at Vel Tech, the 3rd Semester at FCRI and the 4th Semester at any Industry or at Vel Tech for the project work.
- FCRI and Vel Tech will each designate one of their officers as coordinators for this programme. Both the coordinators would render all assistance to the students in respect of boarding and lodging facilities at Palakkad. The expenditure in respect of boarding and lodging will be borne by the students
- For the M.Tech Programme, examinations will be conducted at by Vel Tech as per its rules and procedures. FCRI will extend all help in setting up the examination requirements like Question papers & Evaluation of the answer sheets, if necessary.
- The project work will be carried out under the overall supervision of FCRI and Vel Tech.
- Viva –voice examination for the fourth semester examination will be conducted at Vel Tech. FCRI will depute one supervisor for Viva at the cost of Vel Tech (travel, boarding, lodging expenditure will be taken care by Vel Tech).
- Vel Tech University to nominate maximum number of students every year of their M.Tech Programme to FCRI for 3 months training as being done regularly.
- The fee for such training will be charged @ **Rs. 62,000/-** student. However whenever there is any change required in the training fee, it will be decided with mutual consent.
- University shall make the payment to FCRI within 15 days from the date of commencement of 3rd semester classes at FCRI. The mode of payment will be in the form of Bank Demand Draft of any nationalized bank in favour of “FCRI” payable at Palakkad without any deductions.
- Successful candidates will be awarded the M.Tech degree by Vel Tech clearly specifying that the programme is offered in association with FCRI with the logo of FCRI engraved in the degree certificate.

- Format of the certificate shall be designed in consultation of both the parties.
- FCRI may fill vacancies, if any, for short term course as deemed fit.
- Vel Tech may depute their UG/PG students to FCRI for short-term courses (PGCP) on mutually agreed terms at nominal fee.
- Access to FCRI courses would be offered to Vel Tech students when web-based courses are launched, at mutually agreed terms and nominal fee.
- FCRI agree to offer In-Plant Training and Project to students of Vel Tech as per FCRI norms and fees structure.
- If needed FCRI may sponsor some of their Engineers for higher studies at Vel Tech to any requested course on mutually agreed terms at nominal fee. **Vel Tech may also send PG engineering students from other programmes apart from this PG course for the Post Graduate Certificate Programs (PGCP) at FCRI.**

4. General

- Benefits such as improved technology, materials, machinery, process, designs and techniques, accruing or arising from this cooperative effort may be used by either or both the parties with due recognition of each party's contribution. All results from collaborative work shall carry joint IPRS.
- Results from collaborative research may be used by either or both the parties with due recognition of each party's contribution.
- Research findings of joint IPR generated as a result of this collaborative work of both the parties will be published in the public interest.
- Research findings published by either party will give credit to other party's contribution, but the party publishing them will be entirely responsible for conclusions and interpretations reported.
- FCRI will assist Vel Tech to upgrade their academic lab facility, if required on mutually agreed payment terms.
- FCRI and Vel Tech will work together to setup a Center of Excellence specialising in areas on mutually agreed terms.
- Both the parties can include their names in advertisement and the cost of the advertisement will be borne by the advertising party.
- FCRI and Vel Tech can include each other's link in their respective websites. All joint courses shall be listed in each other's website.

This agreement will be in effect for a period of 5 years from the date of signing of this MOU by both the parties and may be renewed further, if mutually agreed. Either party may modify (on mutual consent) or terminate the agreement by written notification signed by the appropriate official of the Institution initiating the notice. Such notice must be received by the other party six months prior to the effective termination date. However, obligations and commitments already contracted for and involving their parties shall be honoured and continued by both parties until such commitments are completed.

In witness whereof, the parties hereto caused this instrument to be executed as of the day, month and the year indicated below:

Signed this day the **Eighth day of April of the year Two Thousand and Fifteen.**

FLUID CONTROL RESEARCH INSTITUTE

(Ministry of Heavy Industries, Govt. of India.)
Kanjikode West, Palakkad, Kerala - 678623.

Announces M.Tech Admission

M-TECH- PROGRAMME IN MEASUREMENTS & CONTROL

This two year M.Tech differs from any traditional control/measurement courses in the specialisation, content & the delivery system. This course is offered in association with Fluid Control Research Institute (FCRI), a premier research institute under the Ministry of Heavy Industries, Govt. of India. The students will be trained in advanced digital methodologies involved in measurements & control and in the second phase of the course the students will be trained specially on flow related controls and data acquisition systems. It is a 2 year programme. First year being spent at Vel Tech and the second year at FCRI. The students completing this course will have the ability to design and develop systems for modern digital controls and hence have the potential to be on floor from day one.

About Fluid Control Research Institute:

Fluid Control Research Institute (FCRI) has been, established by Govt. of India with techno-economic inputs from the UNITED NATIONS DEVELOPMENT PROGRAMME (UNDP). FCRI is a premier institute in Fluids Engineering in South East Asia for R&D on flow products, Testing and Calibration of Valves, flowmeters and other measuring instruments as per ISO requirements, Model approval Tests, etc. FCRI is accredited by NMI, Netherlands, NABL, Bureau of Indian Standards (BIS), DST & DSIR, Underwriters Laboratory, USA, etc.,

FIRST YEAR SUBJECTS AT VEL TECH

- ❖ Mathematics for Instrumentation Engineering
- ❖ Transducer & Smart Instruments
- ❖ Advanced Digital Signal Processing
- ❖ Industrial Instrumentation
- ❖ Industrial Data Communication
- ❖ Advanced Control system
- ❖ Process Control and Instrumentation Lab
- ❖ Instrumentation System design
- ❖ Industrial Automation
- ❖ Elective I
- ❖ Elective II
- ❖ Elective III
- ❖ Industrial Automation Lab

SECOND YEAR SUBJECTS AT FCRI

- ❖ Basic Flow Measurement Methodologies
- ❖ Advanced Flow Measurement & Control
- ❖ Flow Measurement Lab
- ❖ Project Phase I, II

PROJECT WORK:

The students will do their project work at FCRI or in a core Industry depending upon their placement.

SELECTION PROCEDURE:

Based on candidates performance in entrance Exam and personal interview

ELIGIBILITY: B.E/B.Tech in EEE, E&I, ECE, ICE or its equivalents.

ENTRANCE EXAMINATION & PERSONAL INTERVIEW WILL BE CONDUCTED DURING THE MONTH OF JUNE / JULY. CLASSES WILL COMMENCE IN AUGUST
HOW TO APPLY: APPLICATION FORMS CAN BE DOWNLOADED FROM THE WEBSITE www.veltechuniv.edu.in OR CAN BE OBTAINED BY CONTACTING:

CERTIFICATE

This is to certify that *Ms. Mallela Mohana Sruthi., Electronics & Communication Engineering student from Vel Tech Dr. RR & Dr. SR Technical University, Chennai* has undergone one week Inplant training in our Institute from 6th June 2016. During the above training, she had direct exposure to the following:

- Various laboratories of FCRI like Water Flow Lab, Air Flow Lab, Physical Standards Lab, Electro Technical lab, Large Water Flow Lab, Environmental Quality Lab, Centre for Water Management & Compressed Natural Gas Lab.
- Physical inspection of various flowmeters and their installation requirements.
- Calibration and testing of flowmeters like Mass flowmeter, Electro-magnetic flowmeter, Turbine flowmeter, ultrasonic flowmeter.
- Testing and Study of control valves.
- Calibration of various instruments related to length, mass, viscosity, temperature, pressure, volume, relative humidity, force/torque.
- Calibration of Electronic instruments in the Electro Technical Lab.
- Testing of Water meters
- NG50 & CNG 250 bar gas test facility.

She has successfully completed training and her conduct and character were found to be good to our knowledge.

This is to certify that **Mr. S.Sudharsan**, from **VEL TECH Dr.RR & Dr.SR UNIVERSITY** (B-Tech in Mechanical Engineering 6th Semester student) has undergone one week Inplant training in our Institute from 5th June 2017. During the above training, he had direct exposure to the following:

- Various laboratories of FCRI like Water Flow Lab, Air Flow Lab, Physical Standards Lab, Electro Technical lab, Large Water Flow Lab, Environmental Quality Lab, Centre for Water Management & Compressed Natural Gas Lab.
- Physical inspection of various flowmeters and their installation requirements.
- Calibration and testing of flowmeters like Mass flowmeter, Electro-magnetic flowmeter, Turbine flowmeter, ultrasonic flowmeter.
- Testing and Study of control valves.
- Calibration of various instruments related to length, mass, viscosity, temperature, pressure, volume, relative humidity, force/torque.
- Calibration of Electronic instruments in the Electro Technical Lab.
- Testing of Water meters
- NG50 & CNG 250 bar gas test facility.

He has successfully completed training and his conduct and character were found to be good to our knowledge.
