4.2.4. Number of Teachers and Students using Library per day in the year (2020-21)

4.2.4.1 Library Software (AutoLib), generating User Log Report

The Central Library is fully automated with the “AutoLib” Library Management System Software. The entry of user community is recorded through scanning of barcode available in the id card. The Central Library Gate Entry is done through the Computer System, which is specially kept for the registration of the footfall of the user community. The report of the same can be generated through the module of “User Log Report”.

The software is programmed to register each and every search process of the user community processed through the Online Public Access Catalogue and the report for the same can be generated through the module of “Library Login”.

The Circulation of Books of the Central Library is accomplished through the “AutoLib” Library Management Software and the report for the circulation of books such as Issue Report, Return Report and Renewal Report can be generated through the module of “Counter Report”.

The following supporting documents for teachers and students using Library per day are attached herewith for ready reference:

4.2.4.2. Library Footfall through Gate Entry (User Log Report) Screenshot and Report from 01.07.2020 to 30.06.2021.
