## Information about Third Party Liability Insurance in Germany

---

Family name: Undamatla

First name: Kali Satya Sri Charan

Date of birth: 7/28/2000

Nationality: IND

Application number: 267893

Matriculation Number:

In Germany, it is very common to hold third party liability insurance. This insurance covers the cost of accidental damage caused to third parties, property (belongings) or income, this includes damages to rental accommodation. According to German law (BGB § 823), you are personally liable with your income and savings for all damages caused by you to a third party, unless you hold third party liability insurance.

The International Office strongly encourages all international students to take out third party liability insurance (Privathaftpflichtversicherung). Students who do not do so risk large financial burden if they cause damage to third party persons, property or income. Such costs will not be covered by TU Braunschweig or the exchange programme. You are personally liable.

Please do not hesitate to ask us about liability insurance during your enrolment appointment.

I hereby confirm that I have read this information sheet on third party liability insurance in Germany and that the International Office has thereby informed me of the importance of taking out third party liability insurance. I acknowledge that the cost of third party liability insurance is not covered by the TU Braunschweig or associated entities.
