**INTERIM FEEDBACK - INFERENTIAL STATISTICS REPORT –
FRESHMEN ENGINEERING**

SUMMER SEMESTER 2023-2024

The Interim Feedback Analysis for the Summer Semester 2023-24 was conducted to evaluate the quality of instruction and overall student satisfaction in the Foundation theory course - Biology for Engineers (Course Code: 10210BM101) offered by the Department of Biotechnology & Biomedical Engineering to Freshmen Engineering Students of various departments. The dataset comprises feedback scores from 15 course offerings, with ratings measured on a five-point scale.

The feedback scores range from a minimum of 4.0 to a maximum of 4.8, indicating consistently positive student perceptions. The average feedback score across all slots is approximately 4.35, demonstrating a strong overall teaching performance. Notably, 13 out of 15 course offerings (about 87%) achieved scores of 4.2 or above, underscoring uniform quality in course delivery and learner engagement.

The highest feedback score of 4.8 was secured in two course slots, delivered by Dr. Madeshwari E and Padmanabha Sarma A.B.S.K. These top scores indicate exceptional performance in areas such as clarity of instruction, engagement with students, effective teaching methodologies, and timely completion of syllabus components.

On the other end of the spectrum, the lowest feedback score recorded was 4.0, corresponding to course slots handled by Dr. Arunachalam P and Dr. Achsah R.S. Although these scores are comparatively lower, they still fall within the “good” performance range, suggesting acceptable levels of student satisfaction with scope for further pedagogical enhancement.

The narrow dispersion of scores, with a difference of only 0.8 points between the highest and lowest values, reflects consistency in instructional standards across departments and slots. Overall, the statistical evidence highlights a strong delivery satisfaction level among students, affirming the effectiveness of teaching practices and curriculum implementation for the course during the evaluated semester.
