

OFF-CAMPUS WATER CONSERVATION SUPPORT

Vel Tech plays a yeomen service in creating awareness among youngsters to protect and nurture the environment. It encourages keeping the surroundings clean and green inside and outside the campus. Students participate in biodiversity Conservation, water conservation, Energy conservation, Waste management, and outreach activities, which attract public support for environmental intervention.

Objectives

- To motivate the students to keep their environment green and clean by undertaking

Plantation of trees.

- To encourage students to imbibe habits and lifestyles for minimum waste generation, separating waste and disposing of the waste to the nearest storage point.
- To organize programmes such as quizzes, essay writing, painting, slogan writing, elocution competitions, rallies, etc., regarding various environmental issues and to educate youth about reusing waste material and preparing products out of waste.
