PLACEMENTS

The steady placement record witnesses the consistent progress of the Institution.

COMPETITIONS

In the recent days, corporate tends to identify potential candidates through various online Competitions. Accordingly, students are motivated to participate in various contests like Hacker rank, Hacker earth, Code Vita, L&T Techgium, SAP online test etc. through which students get internship and job offers.

- Valeo innovation challenge 2018
- Robowar technoxian championship 18
- Microsoft imagine cup 18 challenge
- L&T Techgium 2018
- Smart India Hackathon 2018
- Big idea challenge 2018
- Oracle code online
- Innovation challenge by Bajaj Electricals Ltd
- Informatica Code-a-thon is a programming - focused challenge

Pilla Ramu of final year CSE has been shortlisted for TCS employment offer based on his performance in "CodeVita" contest.

Aishwarya Gowda. A.G. of final year ECE got L&T Technology services offer by her extraordinary performance in "L&T Techgium" contest.

- Pujith Reddy of final year CSE has cleared the "SAP online test" and got call letter from SAP Labs office.
- VelTech Rangarajan Dr. Sagunthala R&D Institute of Science and Technology has been ranked 2nd in "Neural Hack", National level Hackathon for E School.

INTERNSHIP TO PLACEMENT

Internship to Placement model is highly practiced in many companies these days. Vel Tech facilitates Internship as part of the curriculum wherein students are facilitated with internship opportunities. in India as well as abroad like Malaysia, Singapore, Germany, France, Taiwan etc.

Choice Based Credit System (CBCS) enables students to take up one year internship in their final year, provided the successful completion all the courses required in their third year itself.

Some of the companies like Amazon, Juspay, Odessa Technologies, TVS, Paypal, MuSigma etc. has offered internship cum placement to the students.

THE TIMES OF INDIA

THE IDEA IS TO BUILD A YOUNG TALENT POOL FOR THE FUTURE BUSINESSES

The panelists during the discussion

During this panel discussion 'Building a Future-Ready Talent Pool: A 2017 Perspective', which was held at Taj Coromandel, Chennai, the invitees extensively discussed on developing a young talent pool for the future. The event organised by Veltech Dr RR & Dr SR University had attendees which included heads of different companies and other eminent people from the corporate industry and business institutions. Dr Chandrasekhar, pro vice chancellor of Veltech Dr RR & Dr SR University, delivered the welcome speech and introduced the panelists. As the discussion started, the panelists put across their views on how corporates and educational institutions can work hand-in-hand to provide an environment for youngsters to improve their competencies.

Speaking at the event, Yogachitra S, head-HR and admn, NTC Logistics India (P) Ltd. says, "The logistics industry is booming and opportunities galore. We are looking at graduates with the right attitude, good learning skills and capabilities, mainly MBA graduates from reputed universities." But what is important is the awareness among educational institutions about the fast-paced changes happening in the industry, says V Viswanathan, vice president HR, Wipro Ltd. "And they should prepare the students in such a way that they are ready to face the challenges and overcome them successfully. Students should pick up programming skills which are crucial in IT, communication skills, excellence in design, innovation and analytical thinking to execute projects."

Giving details about the opportunities in healthcare industry, R Prasanna Venkatesh, senior manager HR, Trivitrion Healthcare, says, "There are numerous opportunities in the healthcare industry for students of Biomed Engineering, Biomed Technology and E&C, who are not only needed for R&D (Research and Development), but also for manufacture, sales, services and application. In can-

KVD Kishorekumar, vice president, Veltech Dr RR & Dr SR University and S Keerthivasan, lead campus hiring India, Polaris

Umanath Kumar, senior manager-HR, Daimler India Commercial Vehicles

didates, we look for soft skills, versatility and ability to function in tune with the demands of the market." Agreeing with Prasanna's opinion on how candidates with a go-getting attitude excel, S Ganguly, vice president and head-corporate HR and administrative services, L&T Metro Rail, Hyderabad states, "Our industry is looking for young candidates with high technical qualifications, who come from good

institutions. The future is bright for the right candidates with great scope for advancement."

Archana Rajammickan, manager-HR, e-con Systems India Pvt.Ltd. says that there are equally good opportunities in engineering services as well. "Ours is a booming industry which is in a state of continuous growth. There is immense scope for both fresh and experienced candidates. This is an industry where hard-core electronics graduates with knowledge, expertise and entrepreneurial spirit can excel." Technical qualification is another important factor, says Ramkishore, head HR, L&T Construction. "Our industry is large-scale and requires technical qualifications. We look for engineering graduates who have the drive and the personality to go to the site and deliver projects nationally and internationally. Candidates are given aptitude tests and also have to go through a rigorous selection process with multiple interactions at various levels. Future trends necessitate candidates with a digital mind-set," he says. Talking on the same lines with Ramkishore, Umanath Kumar, senior manager-HR, Daimler India Commercial Vehicles Pvt. Ltd. says "The commercial vehicle industrial ambience is complex, volatile and uncertain. We are looking for young talent capable of contributing, with excellent communication skills and character."
