Industry Feedback on Curriculum 2024-2025

The industry are the most important stakeholders of B.Tech Computer Science and Engineering (Cyber Security) Programme. Suggestions collected in the form of structured feedback from the industries. We have received 5 feedbacks from industry experts on curriculum and the major suggestions are listed below;

1. Recommended the inclusion of courses on Artificial Intelligence Techniques and Quantum Algorithms and Cryptography to enhance skills in leveraging AI for cybersecurity applications and preparing for future challenges in quantum-resistant cryptographic solutions.
2. Advised incorporating Blockchain Technology to strengthen expertise in decentralized systems, secure data management, and innovative applications across various domains.
3. Proposed offering courses on Quantum Algorithms and Cryptography to equip learners with advanced techniques for securing information in the quantum computing era.
4. Suggested including Artificial Intelligence Techniques and Blockchain Technology in the curriculum to align with emerging industry trends and demands in data security and intelligent systems.

The following subjects are proposed by the Industry Members,

SNO	COURSE NAME	CATEGORY
1	Artificial Intelligence Technique	Program Elective
2	Quantum Algorithms and Cryptography	Program Elective
3	Blockchain Technology	Program Elective
4	Cloud Computing	NPTEL

HOD / CSE (CS) Dr. Rajendran T

Industry Feedback on Curriculum

Name: DT. MICHAEL DINESH

Designation: SENIOR MANAGER

Organization: VERIZON INDIA, CHENNAI

1. How far the courses in the curriculum are relevant to the programme and satisfy the Industrial needs?

☒ Excellent ☐ Very good ☐ Good ☐ Satisfactory ☐ Poor

2. To what degree does the curriculum provide the relevant knowledge, technical and transferable skills?

☒ Excellent ☐ Very good ☐ Good ☐ Satisfactory ☐ Poor

3. To what degree does the curriculum support a diversifying range of students' abilities and strengthen the critical thinking and innovation?

☐ Excellent ☒ Very good ☐ Good ☐ Satisfactory ☐ Poor

4. To what degree does the curriculum emphasize both fundamentals and emerging technologies?

☒ Excellent ☐ Very good ☐ Good ☐ Satisfactory ☐ Poor

5. How far does the curriculum deliver knowledge and skills relevant to the industry needs?

☐ Excellent ☒ Very good ☐ Good ☐ Satisfactory ☐ Poor

6. How does the curriculum enhance the employability skills?

☒ Excellent ☐ Very good ☐ Good ☐ Satisfactory ☐ Poor

7. To what degree the courses offered are relevant to the specialization?

☐ Excellent ☒ Very good ☐ Good ☐ Satisfactory ☐ Poor

8. To what degree the curriculum enhances the practical exposure in programming languages?

☒ Excellent ☐ Very good ☐ Good ☐ Satisfactory ☐ Poor

9. To what degree does the curriculum support to compute the practice based on legal and ethical principles and professional responsibilities?

☒ Excellent ☐ Very good ☐ Good ☐ Satisfactory ☐ Poor

10. To what degree does the curriculum provide abilities to adopt individual practices?

☐ Excellent ☒ Very good ☐ Good ☐ Satisfactory ☐ Poor

Any other suggestions: I suggested that, we may include Block chain technology, cloud computing, and innov applications across various domain.

Faculty Feedback on Curriculum 2024-2025

The faculty members are the most important key contributors of B. Tech Computer Science and Engineering (Cyber Security) Programme. In the academic year 2024-2025, suggestions collected in the form of structured feedback from B. Tech CSE (Cyber Security) faculty members. Received seven faculty feedback on curriculum and the major suggestions are listed below:

1. Recommended the inclusion of a course on Blockchain Technology to equip learners with in-depth knowledge of decentralized systems, smart contracts, and secure data management. This will enhance their ability to design and implement blockchain-based solutions, addressing the growing demand in industries such as finance, healthcare, and supply chain.
2. Proposed to offer courses such as Cryptography and Network Security and Code Daksha to provide students with comprehensive skills in securing communication networks, implementing cryptographic algorithms, and developing secure software solutions. These courses will enable learners to tackle modern cybersecurity challenges effectively.

The following subjects are proposed by the faculty,

SNO	COURSE NAME	CATEGORY
1	Blockchain Technology	Program Elective
2	Cryptography and Network Security	Open Elective
3	Code Daksha	Value Added Course
4	Foundations of Cyber Physical Systems	NPTEL

Students Feedback

Vel Tech

Rangarajan Dr. Sagunthala
R&D Institute of Science and Technology
(Deemed to be University) Tamil Nadu, India
(Established in the year 1984)

School of Computing Department of Computer Science & Engineering (Cyber Security) Student Feedback on Curriculum 2024-2025

The primary stakeholders of the B. Tech Information Technology Programme are the students, making their input crucial. During the academic year 2024-2025, valuable suggestions were gathered through structured feedback from B.Tech. Computer Science and Engineering (Cyber Security) students. Sixteen students provided their insights on the curriculum, and key recommendations are outlined below:

- Consider adding advanced technological courses to enhance the coding knowledge.
- Suggested to incorporate practical knowledge and real-time implementation through more use cases.
- Include industrial visits as part of the curriculum to provide students with firsthand experience and enhance their practical knowledge through exposure to real-world scenarios.
- Suggested to include hands-on training in essential subjects.
- Suggested to include programming challenges courses.
- Students expressed to provide supplementary content that extends beyond the prescribed curriculum.
- Suggested to incorporate courses directly related to industry demands.
- Suggested to add the use case implementation for installation of windows OS and practical demo for hardware and software configurations.

- Q1 How do you rate the curriculum offered in relation to the Technological advancements?
- Q2 How do you rate the syllabus in related to the needs of industry/society?
- Q3 How do you rate the relevance of the courses for providing employability?
- Q4 Did the course curriculum intellectually motivate you?
- Q5 How much has your experience at this curriculum contributed to your job-related knowledge and skills?
- Q6 Was the course curriculum fulfilling your expectations?

- Q7 Does the syllabus create any interest to pursue post-graduation/research in the particular subject?
- Q8 Were reading material and references regarding curriculum / subject easily found?
- Q9 How do you rate the objectives stated for each of the courses?
- Q10 How do you rate the syllabus of the courses that you have studied in relation to the competencies expected out of the courses?

The above feedback analysis, students given 3.76/4 rating for Q5 i.e., was the course curriculum fulfilling your expectations. Students are highly satisfied with the curriculum offered in relation to the Technological advancements (3.64/4) and the ratings for the syllabus in related to the needs of industry/society (Q2) and the syllabus of the courses that you have studied in relation to the competencies expected out of the courses (Q10) are (3.41/4), also rated the relevance of the courses for providing employability (3.63/4).

The following subjects are proposed by the Students,

SNO	COURSE NAME	CATEGORY
1	Artificial Intelligence Techniques	Program Elective
2	Foundations of Cyber Physical Systems	Program Elective
3	Quantum Algorithms and Cryptography	Program Elective
4	Code - X	Value Added Courses

Action Taken: Academic Year 2024 - 2025 Curriculum Feedback

Based on the student feedback analysis few courses were introduced and some courses were revised in the curriculum under various category

SNO	COURSE NAME	CATEGORY	BOS REFERENCE
1	Artificial Intelligence Techniques	Program Elective	5th BOS 14-12-2024
2	Foundations of Cyber Physical Systems	Program Elective	5th BOS 14-12-2024
3	Quantum Algorithms and Cryptography	Program Elective	5th BOS 14-12-2024
4	Code – X	Value Added Courses	5th BOS 14-12-2024
